CHAPTER V

CONCLUSION AND SUGGESTION

A. Conclusion

Firstly, based on the finding and discussion on the previous chapter, the teachers' perspective toward Quizizz is positive perspective because 76,92% teacher is agree with question from questionnaire. Quizizz can help the teacher when the teacher conducted an assessment. Quizizz also more efficient, so teacher doesn't spend a time to correct the students' answer because Quizizz is automatically give a score. Thus it can be said that Quizizz is suitable and recommended application as assessment tool.

Secondly, on the result about the teacher challenge is even though Quizizz help the teacher in assess the students, the teacher also got challenges. Meanwhile, the challenge is come at the first time used Quizizz, internet connection and trust to the students. The big challenge faced by teachers' is trust to the students during assessment is held so that why teacher used *live mode* when assess the students. Henceforth, it can be said that Quizizz has a challenge for teacher and students.

Therefore, it can be concluded Quizizz is suitable as tool for assessing the students and also Quizizz is recommended application.

B. Suggestion

At the end of this research, the researcher intends to give suggestion both the teacher and the future researcher.

1. **For English teacher**

    It suggested that the teacher should be exploring potential or mode in the Quizizz application. So that the teacher more knowing about Quizizz.

2. **For the future researcher**

    Researcher hope that will be other research about other application that can be combined between technology and teaching learning activity or next researcher conduct the research the more potential of Quizizz.
