

CHAPTER V

CONCLUSION AND SUGGESTION

A. Conclusion

Based on the results of findings and discussion, the implementation of the scramble word as a game in teaching English grammar at junior high school is easy to implementation the classroom and effective in teaching grammar, especially Simple Past Tense.

The teachers 'perspectives and students' response towards the use of scramble word as a game in teaching English grammar at junior high school students were very enthusiastic when the teacher applied the scramble word in the class and the learning outcome increases. The result is achieved by collecting the data through interview toward two English teachers of this study.

B. Suggestion

1. For the English teacher

The researcher hopes that the teacher is more creative in teaching, so that the students will be more enthusiastic in learning English, especially grammar.

2. For the future researcher

The researcher hopes that the future researchers can examine and develop the use of scramble word as a game in another learning media.
