

CHAPTER V

CONCLUSION AND SUGGESTION

This chapter presents the final discussion of this research. There are two points presented in this chapter. The first point presents the researchers' conclusion drawn from the result. The second point presents the researchers' suggestions related to this research for the students, english teachers and future researchers.

A. Conclusion

This research aims to discover the teachers beliefs in teaching English by using everyone is a teacher here (ETH) strategy. Some conclusion are following:

Firstly, Based on the finding and discussion the researcher can conclude that the teachers' beliefs in teaching English by using everyone is a teacher here (ETH) strategy is coming from their trust, experience, and their habits. The teachers beliefs because this strategy is suitable with K13 curriculum that students become a center and the teacher becomes a facilitator.

Secondly, this strategy can affect student success which can be proven through the results of student responses that on average agree with the teacher's beliefs using the everyone is a teacher (ETH) strategy in class.

B. Suggestion

The researcher gives some suggestion according to the result of the research as follow:

1. For the Teacher

Teachers should combine their review of teaching and learning process with teaching using everyone is a teacher here (ETH) as a strategy commonly used by students in their learning to support the teaching and learning process, so that students better understand the subject and are active in the learning process.

2. For the Student

Students continue to have high enthusiasm in the learning process, especially for students who still have the nature of shame or afraid to think. Argue without fear that is wrong or right, the important thing is to stay in context.

3. For other researcher

It is expected for the other researchers that the results of this study can be used as additional references for the next research. The other researchers could develop this research with their own material and other methods which are suitable for students in order to give new dimensions in the world of education.
