

## CHAPTER V

### CONCLUSION AND SUGESTION

#### A. CONCLUSION

Based on the result and discussion that have been presented, the researcher conclude that implementing free writing technique to teach writing the teacher did many activities in learning process. They are pre- teaching and whilst activities. In pre teaching the teacher doing greeting, review the previous material, and going to the whilst activities, the teacher doing several steps. Which the teacher shows the topic, guide the students to explore the idea, give time limit to students while writing, and leads the students to mention the words that relate to the topic. The procedures are implemented by the teacher is same as stated by (Wendy 2017). In closing activities, the teacher will correct the assignment first, and ask about the material of the day, if there is student didn't still understand the teacher will explain it again, and then the teacher ask the students present about what the students write and correct the pronunciation. Based on interview, the students' respond is very good when the teacher apply the free writing technique in teaching writing skill. The students happy and not feel worry when they are writing.

In interview the researcher found any challenges faced by the teacher when they implement the free writing technique in teaching writing skill. There were: the teacher should convince the students when they are writing, lack of vocabulary, time management, and the different students' abilities. Less confident of the students is one of the problem that faced by the teacher, it's caused the students

confuse to start writing. Lack of vocabulary also makes the problem of the teacher in implementing free writing technique, the teacher should be able the running dictionary. Time management also to be challenges in implementing free writing technique in teaching writing skill, the students spent the time by imagine the word and idea without writing in a paper directly.

## **B. SUGGESTION**

Based on the result of the research and the conclusion of teaching writing through free writing technique, the researcher is going to present the suggestions to the teacher, the students and other researcher.

### **a. For the teacher**

The teacher should makes the atmosphere of the class to be more active, happy, the purpose the student feel enjoy and don't feel bored when writing. The teacher motivate the students that writing is not difficult.

### **b. For the student**

The student should add the vocabulary as much as possible, and lost the anxiety while writing, be active and confident.

### **c. For the other researcher**

The study was about teaching writing through free writing technique. It is expected for the other researcher that the result of this study can be used as additional reference for the next research. The other researcher perhaps could develop this research whit their own material and other method which are suitable for students in order to give new dimenssion in world of education.
