

## CHAPTER V

### CONCLUSION AND SUGGESTION

Based on this research. The researchers want to convey conclusions and research suggestions

#### **A. Conclusions**

The conclusions of this research are:

Firstly, Students' perceptions of the use of google classroom for teaching practice writing in English the majority of students gave a positive response, because google classroom is one solution for students to keep learning during this pandemic, students can also increase their knowledge of new vocabulary and students feel the ease when using Google Classroom because the features provided are easy to understand. So the use of Google Classroom in this writing practice has received good attention from students because it is an alternative for learning during the pandemic.

Secondly, the challenges experienced by students in using google classroom come from several factors, which are often experienced by students, including unstable and less powerful internet connections to access the material provided, students' financial limitations to have internet quotas and the last one comes from students' understanding constraints about the material presented by the teacher.

## **B. Suggestions**

The suggestions that can be given in this research are:

### a. For school

For schools, it is better to pay attention to the obstacles experienced by students and find solutions for students so that students are more enthusiastic in learning even though it is done at home and also so that students get supporting factors for learning.

### b. For student

For students, it is better to know the use of learning applications and learn how to apply them, so that students can also keep learning and learning more fun.

### c. For other researchers

This study only examines students' perceptions and constraints on the use of google classroom in writing practice. Other researchers are expected to be able to provide additional new theories or solutions in order to become better at using Google Classroom knowledge.
