

## CHAPTER V

### Conclusion and Suggestions

#### A. Conclusion

##### I. Teacher's Perception on the Use of Online Media in Teaching Writing

This research is descriptive research conducted at SMPK Santo Yusup Pacet. This study aims to determine the teacher's perception of the use of online media in teaching writing during the pandemic covid-19. Based on the interview data that has been carried out, the results of the study show that teachers find it helpful to have online media to teach writing at SMPK Santo Yusup Pacet. The teacher revealed that many conveniences were obtained by using online media to facilitate teaching writing. Teachers can also manage teaching aspects using online media. So that learning management can run quickly and practically. On the other hand, the teachers agree that online media is suitable for use in teaching English. So it can be concluded that teacher's perceptions of the use of online media in teaching writing are positive.

##### III. Students' Perceptions on the Use of Online Media in Learning Writing

Students' perceptions of the use of online media in learning to write gave a positive response. This is because students find it easy to access online media to support their learning to write during the covid-19 pandemic. Students can also increase their knowledge and insight into the use of online media. In addition, the features provided in online media can make it easier for students to access sources of information or materials related to learning writing during the COVID-

19 pandemic. So it can be concluded that students' perceptions of the use of online media in learning writing are positive.

## **B. Suggestion**

### **a) For Teacher**

Teachers are expected to continue to improve their quality and performance in using online media to teach writing during the COVID-19 pandemic. Teachers are also expected to make good use of online media according to learning needs. Teachers can add other online media to facilitate learning during the COVID-19 pandemic.

### **b) For Students**

It would be nice if students continue to learn to write actively using online media. Students are also expected to use online media as well as possible and use it according to the writing learning that is being carried out.

### **c) For Other Researcher**

Researchers hope that other researchers will continue to improve their knowledge and insight in the use of online media in learning during the covid-19 pandemic
