

## CHAPTER V

### CONCLUSION AND SUGGESTION

The chapter presents the final discussion of this research. There are two points presented in this chapter. The first point presents the researchers' conclusion drawn from the result. The second point presents the researchers' suggestions related to this research for the students and English teachers.

#### 5.1 Conclusion

This study aims to determine the perceptions of teachers and students towards Quipper School as a medium in the EFL class, as described in chapter 1. After finding and discussing the data collected in chapter IV, the researcher concludes the perceptions of teachers and students of Quipper School as Learning Media of MALL in EFL class.

First, based on the findings of this study, teachers have a positive perception of Quipper School as the Learning Media of MALL in EFL classes. Quipper School as Learning Media of MALL, helps and makes it easier for teachers to provide material to students online. Quipper School is also a learning medium that has a good management system. Teachers benefit a lot from the features available in Quipper School. So that online learning can be carried out smoothly during a pandemic.

Second, based on the findings of this study, students also have a positive perception of the Quipper School learning media in the EFL class. Quipper School is Learning media of MALL, which helps and makes it easier for students to learn and understand the material during EFL class. Quipper School is also a simple and easy-to-use learning platform. Students get teaching videos that are easy to understand, clear, and detailed so that they are considered adequate when learning English.

## **5.2 Suggestion**

After knowing the conclusions above, the researcher would like to convey suggestions for English teachers, students, and future researchers.

### **a. For the English Teacher**

The teacher should remind students more often if there is new material and assignments. Because students often don't receive notifications if there are assignments or material updates, the cause is a network connection.

### **b. For the Student**

Students need to pay attention to the internet connection when learning English. The goal is that notifications appear if there are new assignments and materials that the teacher gives, and learning can run smoothly. Students also need to explore Quipper School more to know the various features.
